

Dear FCC,

I'm am writing with concern about the AT&T purchase of T-Mobile. This is disheartening to me. I do not want this merger to happen. I am a former AT&T customer and I left them to go to T-Mobile due to their better prices. If you were to allow this merger I feel that AT&T would have a monopoly on the GSM network and the idea of allowing the market to regulate itself by competition will disappear. I know that you will receive many comments, but please think about the customers and the market before you allow this merger. I request that you do not allow it.

Thank You,

Ben Layman
